

## Rectifier & Inverter in one box

Built on HE technology from the Flatpack2 HE rectifier family the Rectiverter 230/1500 110/1200 provides backed up power for 230 V<sub>AC</sub> loads with minimum losses and footprint.

It is a 3 port device capable of charging the 110V battery and simultaneously provides power for the AC and DC loads. During mains outage the Rectiverter feeds AC loads using energy stored in the battery.

## Rectiverter 110V

230/1500 110/1200 & 115/750 110/600

Doc 241123.130.DS3 – v2

### APPLICATIONS

#### POWER UTILITIES

- Low & High voltage switchgear
- Transformer & SUB stations
- Power Generation & Distribution
- Control & protection

#### RAIL & METRO

- Control & protection
- Signaling

115 V<sub>AC</sub> 750 VA version

### KEY FEATURES

- UNIQUE 3-IN-1 OPERATION...
  - INVERTER
  - RECTIFIER
  - POWER SOURCE TRANSFER
....IN ONE BOX
- MODULAR DESIGN
- HIGH EFFICIENCY
- GLOBAL COMPLIANCE
- PATENTED TECHNOLOGY
- HOT PLUG-ABLE
- VOLTAGE KEYING

Rectiverter 6kVA single phase power core

Rectiverter 18kVA 3-phase power core

# Rectiverter 110V

| Environment   | EU 2015/863 (RoHS) & 2012/19/EU (WEEE) / ETSI EN 300 019: 2-1 (Class 1.2) & 2-2 (Class 2.3)<br>Normal operating conditions as per IEC 62040-5-3:2016 clause 4.2. Other operating conditions as per IEC 62040-5-3:2016 clause 4.3, must be advised |                                    |                                    |                       |   |                                    |  |  |

1) AC load has priority. Maximum available DC output power and current is dependent on instant AC load and AC input voltage; i.e maximum 800W/7.4A at full AC power and nominal input for 230VAC.

2) DC port must still be considered bi-directional port; voltage will present if mains powered

3) If DC port is overloaded pulling the voltage below 97V the input current may increase above this level.

4) Reduced performance - no over load support, and for 200 - 240 VAC output THD will increased and maximum output power de-rates (to 970W for 230 VAC @ 90 VDC) to meet surge requirement of 4kV external surge protection is needed on AC ports

5) required FW version ≥ 1.20/1.20
